DCI/IC 74-2303

27 AUG 1974

25X1
MEMORANDUM FOR:

SUBJECT : Follow-On Actions to the "Perspectives"

1. Reference is the attached Coordination Staff/Secretariat memorandum, subject as above, dated 20 August, and its tabulation which lists all of the "actions" set forth in the DCI's "Perspectives for Intelligence, 1975-1980." This tabulation includes columns to show the "primary responsible entity or entity" and the "Intelligence Community Staff responsibility."

2. I consider it quite important that the IC Staff play an active role in assuring there is adequate follow-up to the study and planning actions which the DCI has listed in his "Perspectives." This will require a formal allocation of responsibilities and a follow-through. The intention is to assure that the "Perspectives" has a direct impact on planning and programming activities of the Intelligence Community.

3. Primary action on some of the matters will be a program manager responsibility; others will be the responsibility of USIB Committees or other groups. The IC Staff itself probably should have primary responsibility for some of the actions.

4. The suggested allocation of primary and IC responsibilities in the attached tabulation is a "first cut." It is recognized that review by the Division Chiefs is likely to result in changes.
